Assuring opportunity and encouraging excellence for every student, in every classroom at every school.

Who we are

The Snoqualmie Valley Schools Foundation is dedicated to assuring opportunity and encouraging excellence for all Snoqualmie Valley students. A separate, but collaborative, partner with the school district, the Foundation is solely funded by private contributions.

As a 501 (C) (3) non-profit organization, we ask for your tax-deductible support with corporate sponsorships, private donations and gifts of time.

What we do

It takes a community to create great schools and successful students. Through generous individual and business donors, we raise funds for innovative and motivating programs that enrich and add to the education of our students. We support our District's efforts to achieve increasingly high standards of educational excellence. Your contributions make possible the important, extra experiences and materials that often go unfunded, yet are critical to the life of students, classrooms and schools.

Our Funding Priorities

The Foundation works closely with the Snoqualmie Valley School District to meet the district's needs. We touch every student through:

- Awarding classroom grants to enhance the classroom experience
- Reading/Math support and intervention
- Arts and Music education
- Implementing technology in each classroom

The Foundation has raised hundreds of thousands of dollars since its inception, funding everything from ActivBoards and the Natural Helpers program to physics lab equipment and a sheet music library.

Please go to www.SVSFoundation.org to learn more

Every day we are inspired by the proud smiles on the faces of our students when they show off something they've learned in school:

“As I was walking about my science classroom observing the students work on a car and ramp lesson, I heard one student exclaim something every science teacher loves to hear. “Oh, I get it! Look! As you raise the ramp higher, the speed of the car goes up.” This was a concept I had been trying to get across to the students without much success. Finally, when I used the basic physics equipment purchased through a grant from the Snoqualmie Valley Schools Foundation, I hit pay dirt.

The grant provided me with hands-on equipment that helps all learning styles. The equipment is simple enough, and yet technologically advanced to what I usually use that they provided all students with the sense of accomplishment. By using the cars, ramps, and high-tech electronic gates, learning was taking place within my classroom!

Experiences dictate the outcome of individuals;
the Foundation Grants make student learning experiences richer and more meaningful.

With the help of donors like you the Snoqualmie Valley Schools Foundation has enriched learning environments for thousands of valley students by equipping educators with the tools guaranteed to engage young minds and develop the intellects of our scholars. Your support assures opportunity and encourages excellence for every student in Snoqualmie Valley.

To nurture exceptional schools we must continue to excite children in the classroom, in arts practice, on the field, or in the library. Working with parents, business and community leaders we will demonstrate to our children that education is worth the investment of time and money.

Help us assure opportunity and encourage excellence for every student served by the Snoqualmie Valley Schools Foundation. Through individual donations, corporate matches, luncheon sponsorship, or by becoming a 365 partner you will support our students every day of the year.

SVSF Classroom Grants to enrich learning experiences

\$17,000 in mini-grants go out from Snoqualmie Schools Foundation

December 2, 2011

The Snoqualmie Valley Schools Foundation recently awarded 18 small grants to eight schools in the district, totaling \$17,083.

Grants were awarded in many areas of curriculum, including language arts, special education, science, marketing, geography, and general education enhancement.

The following are the grants, by school:

- Chief Kanim Middle School received \$300 for comic book maker software.
- Mount Si High School received: \$870 for adaptive PE equipment for special needs students; \$2,000 for Natural Helpers training; \$1,580 for a camera and tripod to make videos for the social norms marketing campaign; \$100 to send 28 DECA students to a conference; and \$2,611 for science lab units.
- Twin Falls Middle School received: \$350 for microphone headsets to engage students through technology; \$1,000 for Natural Helpers funding; and \$2,300 for video camera upgrades.
- Cascade View Elementary School received: \$120.45 for “Time Wise” five clocks displaying timezones throughout the world; \$510 for a “Let’s Drive our Teachers Buggy!” Nature Vision presentation; and \$609.66 for portable CD players for use in “Read Naturally” lessons.
- North Bend Elementary School received: \$525 for eight GPS units to be used in the classroom; and \$600 for “Access for All” ebooks.
- Fall City Elementary School received \$1,695 for a science website subscription.
- Snoqualmie Elementary School received \$766 for first grade writing workshop materials.
- Opstad Elementary School received \$280 to send 80 second graders to the Burke Museum for a field trip.

The foundation also awarded the district \$866.25 for toolkits for each elementary school’s English-language learners.
